# All Star Performers

Dear Friends, Family & Neighbors,

*After 25 years of successfully teaching and coaching high school sports, I have decided to retire and coach others in achieving their financial goals. Through dedication and hard work combined with my extensive background in the financial services, I can coach you towards your goalpost of financial freedom and independence.*

*I have recently moved my real estate license to Prudential Utah Real Estate, a proven leader in the industry. Additionally, I have teamed up with my daughter Staci who also is a Prudential Utah realtor, my wife Bonnie, who is operations manager at CPA Mortgage services, and my brother Jim who is owner of Georgelas Insurance Agency. Our family makes a great team.*

*This family of All Star performers will allow me to help you score big gains with your real property portfolio; find effective and affordable finance programs, design comprehensive and affordable insurance protection for your assets. My team has impressive stats with over 30 years of combined experience and winning strategies.*

*As a coach, I always looked for a way to win - even in the most challenging situations. I believe that same "find a way" mentality combined with my knowledge of championship strategies will make my team the best in the industry. Furthermore, your experience will be stress free as I teach and coach you through the entire process, rather than simply sell.*

*Please call me, as I would love to help you or someone you care about. Visualize victory by calling the "Coach" today and I'll show you how to prepare a successful financial game plan.*

*Yours in coaching,*

# Keeko Georgelas
